Professional 9 enhances multi-party collaboration so that users can work at the pace demanded by their organization, with the precision required by their profession.

With new and more tightly integrated features, Professional 9 makes it much easier for users to view changes, accept and reject them, and share files during the collaboration process.

Workshare Professional 9 combines market-leading comparison capabilities and metadata removal features to clean hidden sensitive data from attachments in one, simple, desktop product. Once compared, users can share documents or accept or reject changes from the DeltaView redline, for a seamless comparison experience and increased accuracy. Workshare Professional 9 includes a new Connect component that provides users with a set of online services. These services extend collaboration capabilities beyond the desktop and enable simplified collaboration from both inside and outside the organization. With Workshare Professional 9's data-governance features, IT groups maintain ultimate control over the businesses' data.

## BUSINESS OPPORTUNITY

Help document owners complete reviews quickly and accurately. Streamline the process and remove unnecessary steps by enabling users to compare, review, and implement changes directly from Microsoft Office or Professional 9.

## RISK MITIGATION

Reduce scope for error and increase control over versions. Changes can be shared easily by sending a DeltaView. Apply changes directly to the DeltaView to ensure the document evolves without overlooking changes.

## USER ENGAGEMENT

Empower users to run more efficient multi-party reviews, even when working remotely. Users are able to see changes, and easily accept and reject, while maintaining ultimate control. Receiving comments and sending updates is simplified and accessible from mobile devices.

## OPERATIONAL EFFICIENCIES

Usability is improved with simpler deployment and minimal add-ins, making installation and maintenance easy. With online collaboration, file sharing, and sync capabilities, IT groups can maintain visibility and audit trails.

## ABOUT WORKSHARE

Workshare is a leading provider of secure enterprise file sharing and collaboration applications. Workshare allows individuals to easily create, share, and manage high-value content anywhere, on any device. Workshare enhances the efficiency of the collaborative process by enabling content owners to accurately track and compare changes from contributors simultaneously. Workshare also reduces the commercial risk posed by inadvertently sharing confidential or sensitive documents. More than 2 million professionals in 70 countries use Workshare's award-winning desktop, mobile, tablet, and online applications.
